

FAO ERASMUS STUDY

APPLICATION AND ADMINISTRATION

+ How do I apply ?

The University of Lyon 1 is composed of two faculties : The Faculty of Lyon Sud Charles Mérieux and the Faculty of Lyon Est. Your home university nominates you to our university (Lyon 1). Both faculties will send you information about your mobility. (Courses, internship, dates, functioning...)

It will be up to you to choose the faculty you want.

We remain available to answer your questions.

Finally, a deadline (around the beginning of June) is decided in common with both faculties to receive the applications (document to prepare the application form in our Handbook).

+ Is it possible to apply to both faculties to be sure of acceptance ?

No, you must choose only one faculty (Lyon South Faculty or Lyon East Faculty).

+ When will I receive my signed Learning Agreement ?

You will receive the form in September (usually at the beginning of September). We must first make the assignments for the internship you have chosen. As places are limited, it is sometimes possible to offer you another internship depending on the number of requests.

+ Do you accept freemover students ?

No, we do not accept freemovers.

LANGUAGE

Are the courses and internships in French or English ?

Courses and internships are in French, a minimum knowledge of the language is required.

What level of French is required ?

We ask for a level of French B2. If the level is slightly lower we will accept you as well. Proof of language level is required for the application. (No specific document).

Is it possible to do the French course twice ?

Yes, it is possible to take the French course once per semester. That is 6 ECTS (2x3 ECTS).

However, this is discussed with the professor according to the number of requests, the level of French..., you will not be given priority if you have already done a language course in the 1st semester.

COURSES

Which course should I choose ?

You choose the courses you want from the Handbook (see our website). You must obviously make your choice in agreement with your home university.

Please note that the year-round courses are not available to students coming for the first semester.

INTERNSHIP

+ Can I do internships in group 1 and group 2 ?

No, you must choose your internship group. The groups are made so that you can follow the courses between two internships.

+ If I only want to do internships, is it possible to do internships in group 1 and group 2 ?

No, this is not possible.

HOUSING

+ What about student housing ?

A campaign for CROUS housing is planned in July for the first semester and the year. Another campaign for CROUS housing is planned for the second semester.

Our service is the link with the housing service of Lyon 1 University and sends you the information by e-mail. We advise you to be reactive as there is no room for all requests.

It is strongly recommended that you also look for accommodation yourself on websites such as "STUDAPART".
