ERASMUS+

Academic year 2024-2025

Faculty of Medicine LYON SUD – Charles Mérieux

<http://lyon-sud.univ-lyon1.fr>

ERASMUS and other exchange students who come to study at the Lyon Sud-Charles Mérieux Medical and Midwife faculty are able to carry out clinical internships in the different hospital wards and/or to follow courses. Depending on the courses that they are required to validate, students may follow the courses and sit written exams relating to the two years of study: DFASM1 and DFASM2 (= 4th and 5th year of French medical school) (see pages 3 and 4)

THEORETICAL COURSES

ERASMUS students can attend all 4th and 5th year courses. **The courses are given in French.** To do so, please consult the course schedule on the website of the Faculty of Medicine Lyon Sud: <http://lyon-sud.univ-lyon1.fr> or this handbook.

The courses take place in the amphitheaters or the rooms of the faculty, and are also available on the e-learning website of the faculty. The 4th and 5th year courses are divided into two groups.

For example, when group 1 is doing its internship, group 2 will be in class and vice versa.

Attendance in class is not mandatory, but is recommended for students who wish to improve their knowledge of the French language.

EXAMINATION PROCEDURE

The exams are 30 min to 1h30 long depending on the specialty, and are on a tablet (Ipad). Dictionaries are allowed during the exams for Erasmus students. Erasmus students are not allowed to take optional courses. **We offer French as a Foreign Language courses (30h / 3 ECTS).**

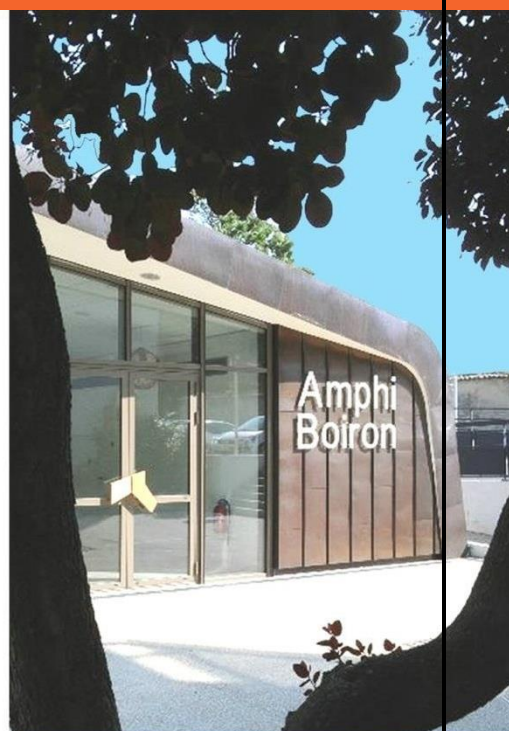

There are 2 types of exams:

- **Continuous assessment (CC): not mandatory.**
- **The Terminal Examination (CT): mandatory to validate the speciality.**

The Faculty only takes into account the grade of the Continuous Assessment (CA) if it is higher than that of the Terminal Examination and allows to increase it.

HOSPITAL INTERNSHIPS

Erasmus students can carry out three-week full-time placements in different university hospital departments. If they stay for one year, they must indicate a **maximum of 7 choices** for their placement assignments. Assignments will be made by the administrative team according to the number of places available in the departments.

PRACTICAL INFORMATION

➤ **Crous accommodation**

2 CROUS housing campaigns are planned during the year:

- 1st semester and full year: beginning of July
- 2nd semester: end of October / beginning of November

An e-mail will be sent to you by the International Relations Manager of the Faculty, so be reactive!

As places are limited, it is recommended that you also look for yourself.

➤ **The Tutex International Relations Unit**

The Tutorat des Externes, created in 2018, is a structure of AMEUSO, in collaboration with the Faculté de Médecine et de Maïeutique Lyon Sud - Charles Mérieux (Université Claude Bernard Lyon 1), which carries out its missions with all students free of charge without any discrimination.

The Tutex has an IR (International Relations) centre which welcomes ERASMUS students and integrates them into the Lyon Sud Faculty.

Some of the projects that the cluster is carrying out :

- Cohesion snacks
- Day trip to Lyon, treasure hunt, games to get to know each other
- To make the link between Erasmus students and the South Lyon Faculty and to help them to better understand the functioning of the Faculty.
- Sponsorship between Southern and ERASMUS students
- Joint evening with the Lyon Est Faculty

e-mail: ri.tutoratdesexternes@gmail.com

➤ **The SUAPS (University Service for Physical and Sports Activities)**

It offers students from all areas of study at Lyon 1 University the opportunity to practice sports. It offers instruction in nearly 30 disciplines.

Internet page: <https://suaps.univ-lyon1.fr/>

➤ **The SSU (University Health Service)**

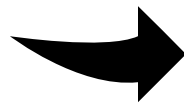

The mission of the University Health Service (SSU) is to ensure prevention, health promotion and care (through consultations) for students. A nurse and a psychologist are available on campus.
